MATTHEWS & Cameron have been awarded the contract of building a bridge across the Beaver river on a road allowance close to the crossing of the Victoria trail, on Northwest government account.

The Western World for March contains a description of the electoral district of Wallace, Eastern Assiniboia, N. W. T. by R. Insinger, M. L. A. The article is very well written and the description is accurate and inviting.

J. T. BLOWEY, furniture dealer of Vancouver, arrived on Monday's train. Mr. Blowey has arranged to go into the furniture business in Edmonton and returns from Vancouver in a few weeks. He leaves by to-morrow's train.

It is now pretty well established that Daniel Campbell, M. L. A. for Whitford district and postmaster at the same place, has defaulted and absconded. He is now in the States. A warrant has been issued for his arrest. He was a supporter of the Haultain party in the house.

On Monday C. Gallagher purchased from Geo. Hutton of Sturgeon river three steers, not yet three years old, which dressed respectively 812, 812 and 985 pounds. These cattle had never been stabled during the winter. They had been sheltered in sheds and the stack yard, but had been fed some grain.

REGARDING the report of the finding of a deserted shanty ten miles east of Beaver lake a few weeks ago and the supposition that it contained human remains, E. Fane, J. P., writes that an examination of the interior of the building did not disclose any such remains. A minute examination could not be made around the place as the snow was still too deep.

Mortimer's panorama on Monday evening had a much better attendance than on the previous Saturday. The Edmonton band was in attendance and rendered the following pieces: Promenade, Villaggio and Brighton quickstep, The Marchioness, Hail Columbia, Bonny Blue Flag, and God save the Queen, in their usual good style. A matinee will be given to-morrow (Friday) afternoon at 3 o'clock, at which the Fire Brigade band will be in attendance.

NINETEEN settlers and prospectors left Calgary on Monday's train for Edmonton and intermediate points. They brought five cars of stock and settlers effects. Of these 15 came from various parts of Ontario, 18 from Dakota, 4 from Nebraska, 3 from Iowa, 3 from Minnesota, 2 from Wisconsin, 4 from Washington, 1 from Vermont, 1 from New Scotia, 1 from England, 1 from Scotland. Rev. Father Morin conducted a party of 40, the greater number of whom came from Massachusetts and Connecticut.

A communication was received from the electric light company asking exemption from taxes. By-law 46 to borrow \$2,000 from the Imperial bank was passed. A. E. Braithwaite, M. D. was appointed health and medical officer at a salary of \$20 a month. The tender of P. Ross for supply of drugs for pauper patients was accepted. By-laws 45 respecting the appointment of officers, 42 respecting chimneys, 32 respecting dog tax were passed. Full report next issue.

THE Sun of Truro, Nova Scotia publishes a column of correspondence on the Edmonton district from R. R. McNutt, of this place, which sets forth the advantages of the country in an interesting manner, and is a valuable contribution to Northwest immigration literature. It is a pity that others have not taken the same line as Mr. McNutt, in helping along the country of their choice, and at the same assisting their former friends by directing them to where they can make for themselves a good home.

Some years ago Mr. Saunders director of experimental farms, took considerable trouble to secure the introduction of the now well known Ladoga wheat into the Northwest, on account of its early ripening qualities. The early ripening has been proven to be a fact. It has also yielded as many bushels to the acre and weighs as many pounds to the bushel, in this district at least, as the red fife. A recent circular from the experimental farm, however, practically condemns it for bread making purposes as compared with red fife on account of the yellowish tinge of the flour.

THE Baptist church services for the time being, are arranged as follows: Preaching in South Edmonton at 11 a. m.; in Robertson's Hall at 7 p. m.; the Bible class and Sunday school at 2:30 p. m.; and preaching every four weeks in Poplar lake school house at 3 p. m. At a church meeting held last evening by the Baptist church it was resolved that a church edifice be commenced in the near future, and a building committee was appointed to solicit subscriptions to meet expense of building, and at the earliest convenient time begin operations. The lots to build on, are secured, and a considerable amount of means guaranteed. Plans and specifications have been submitted to the building committee, and it is confidently expected that, ere long, the church home will be forthcoming. This little church starts out on the principle that "God helps those who help themselves."

THE Okdale Sentinel of March 23rd contains a letter from J. H. Lovering who visited Edmonton a few weeks ago, giving an account of his trip up to his arrival at South Edmonton. This letter will be followed by others giving Mr. Lovering's impressions of the Edmonton district. The following is a paragraph from Mr. Lovering's letter: At Olds, 58 miles north of Calgary, we met two gentlemen from Schuyler, Nebraska, (that came here last fall) who are very well pleased with the country. From Olds to Edmonton it is a beautiful country. About one-third of it is timber, beginning with willow groves from 12 to 20 feet high, then poplar from 30 to 40 and 50 feet and from 2 to 13 inches in diameter, and spruce up to 100 feet. The country is level except right along Red Deer and Battle rivers, and the growth of timber shows that it must be very rich. From Calgary to Edmonton is 192 miles and the towns on the line that have made the most start are Olds, Innisfail, Red Deer, Lacombe, and Wetaskiwin.

NEW ADVERTISEMENTS.

ACTION of Public Works, Monday the 3rd of April 1893, at Fort Saskatchewan, north side, of a bridge over a creek, by Jos. Lamoureux, at 1 p. m. EDMONTON, ALBERTA.
EDUCATION.

The government of the province of Quebec recently appointed a commission to enquire into the causes of the exodus from that province to the United States and the commission has reported. One feature of the report is particularly worthy of the attention of the people of the Northwest. That is the part relating to education and the educational system of the province. The commissioners arrived at the conclusion that the lack of good common schools amongst the agricultural portion of the community and the tendency to over education in the higher schools had the effect of unfitting and dissipating the pupils with farm life. This is a point of view which is of the condition of the common schools in Quebec is important to the people of the Northwest in that it was the Quebec system that that of the Northwest was modelled after from 1885 to 1892, and only at the last session of the legislative assembly was that system displaced for the one which in Ontario has given such good results. The great plea made on behalf of the late board of education was that such a body did good work in Quebec and that therefore it must do good work in the Territories. We have now the evidence of the Quebec commission as to the work which it has done there, as we have the evidence of our senses as to the work it did here. The men composing the board may have been educationalists of the highest order but the system was bad and good results could not be got from it. That part of the commission's report in which it speaks of educating children away from the farm and causing the overcrowding of the professions is also well worthy of attention, that we may not make the same mistake. In a country which is essentially agricultural, such as this, and in this age when the farmer must combine knowledge with industry in order to be successful, the great object of our common school system should be to educate children for the farm and not from the farm. The desire for higher education is laudable, and within certain limits should be encouraged, but it should never be encouraged as it has been in Quebec at the expense of the common school education which in these days is an absolute necessity to any measure of success or pleasure in any walk of life, and is also the foundation of the highest education.

St. Louis, Mo., March 19. — Mr. Hamilton returned yesterday morning from Ottawa. To a local reporter he confirmed the accounts given in the eastern press of the result his mission to the east. The Territories, now, said Mr. Hamilton, have practically responsible government. We have not only been granted the parliamentary vote endorsement, so indisputably by the assembly in its session here, but we are also to receive the portion of last year's vote that has lapsed. We have also secured another concession. The position of the executive committee of the Territories has been defined, and it is now not only a distinct committee but its members are the responsible advisers of the lieutenant governor.

The department of interior report states that the advance of \$20,000 made by the government in 1872 to the Manitoba Colonization, on the security of a party of Waterloo, Ontario, farmers, has been repaid in full with \$33,986 interest. Last year the Manitoba colony in Manitoba was increased by 200 souls, three hundred from Russia and 400 from colonies which had been established in Kansas and Nebraska in 1874 and 1875. The report gives a great deal of credit to J. V. Shantz, of Waterloo, who distributed the loan and collected the returns. Mr. Shantz last year interested himself in establishing a colony in the vicinity of Odo on the C. & E. line.

Medicine Hat Times: A number of letters have appeared in the Winnipeg Free Press lately on the "Prize Puzzle" fake business. Some of the victims had sales to tell. They would win a valuable diamond ring, and have to forward three or four dollars for "packing and forwarding," and ultimately receive an article of little or no value. People in the west are commencing to realize the folly of sending good money out of the country to enrich eastern "fake" concerns. We should never try to "beat a man at his own game," or make "something out of nothing."

An Irish unionist manifesto has been issued over the signature of the Duke of Abercorn, the Marquis of Londonderry, the Earl of Erne, Lord Arthur Hill, Col. Sanderson, the mayors of Belfast and Londonderry, and others. The manifesto announces the formation of an Ulster defence league, "not merely to continue the struggle for the union, but to prepare to meet any contingency." Over one million pounds have already been subscribed as a fighting fund.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

JOHN CAMERON'S NEW STORE

Which he is now occupying, is an important addition to the business establishments of the place and is besides an ornament to the town and a credit to Mr. Cameron's enterprise as well as a mark of his success. The cellar was begun in October last and the stone foundation was only completed as the ground froze up, so that practically, as in the case of the new H. B. store, the work has been done entirely in the winter, a winter which had the coldest weather on record. Very few places in Manitoba or the Northwest can make as good a showing for the past season.

The size of the building on the ground is 30x75, with cellar 50x30, underneath and upper story 50x30. The cellar is 7 feet deep with solid stone walls and contains the furnace, which heats the building with hot air and has large storage room for merchandise besides.

The store is all on the ground floor and occupies a space of 30x75, with 14 foot ceiling. The show windows are 7x10 feet of which space 7x8 is occupied by plate glass. The side lights are of plate glass 7x8 feet. There are six counters, three on each side, and each counter will represent a separate department. Groceries, dry goods, clothing, boots and shoes, house furnishings, crockery and glassware, etc. The shelving is fitted up in the latest style. A private office 10 feet square with glass sides occupies the south east corner of the floor space.

A separate front entrance and stairway five feet wide leads to the upper story, which is divided into four offices, two large single offices in front and two double offices in the rear. The ceiling of the upper story is 10 feet clear. The roof is tiled. A metal cornice in front over the show windows, with the words "John Cameron 1881," which will be done in gilt letters, adds considerably to the appearance of the building. In convenience of arrangement and appearance it is well up with the times, fulfilling all requirements of a first class establishment. It is situated on the south side of Jasper avenue, close to the east line of the McDougall estate. W. S. Edmiston architect. K. A. McLeod, builder.
